

Director of Communication in Southern Ecuador Church of God

*“Partnering with Multiplication Network to develop our church planting process was all in God’s perfect timing and plan.”*

*- Sandra Paucar*

**MAKING AN IMPACT IN MEXICO |**

The first generation of church planters from the Presbyterian Church of Mexico completed their training. The denomination is excited about the major impact this strategy of multiplication will have on their nation. They invited 71 new regions to join in the training to produce the second generation of church planters!

**TRANSFORMING COMMUNITIES IN PERU |**

For 30 years, the region of Ayacucho, Peru, has been home to the terrorist movement “Shining Path” (Sendero Luminoso). The Assemblies of God is sending 150 church planters into this area with plans to plant 200 new churches. Pray for the Holy Spirit to guide and protect these leaders.

**MNM'S MATERIALS IN SEMINARIES |**

MNM’s church planter training modules will be integrated into The Timothy Institute in Guatemala. Pray for this partnership. As the theological basis for church planting is introduced to the students, pray for them to seriously consider involvement with MNM as they graduate from seminary.

**CHURCH PLANTING IN SPAIN |**

The Assemblies of God in Spain set a goal to plant 1,000 churches by 2020. Jose Romo, the National Missions Director, reported 200 churches have been planted already. Pray for the leaders and church planters involved in this strategic plan; pray for the people of Spain to be impacted in the coming years.

**EXPANDING THE NETWORK |**

Bible League Latin America signed an agreement with MNM to plant 3,500 new churches in five years using MNM’s training materials and resources. Pray as this partnership continues to grow.
