## TIMELINE | A tool to help you understand the past and have a vision for the future.

Before analyzing the results of the Take Your Church's Pulse questionnaires, it is helpful to create a timeline of your church's history. Gather your congregation's leaders together and review the history of your congregation so you can see where you are at the present. Understanding the past will also help you envision what God wants you to be and do in the future. To create the timeline, we recommend putting some large sheets of paper on the walls or using a chalkboard or whiteboard. Put a long horizontal line on the paper and follow these steps:

- 1. Individually. Ask all the participants to write down on a small sheet of paper what they believe are the most important moments in the congregation's history. Have people think about the beginnings, the transitions of leadership, successes, conflicts that left a mark on the congregation, etc. Include also events in the community or country that were significant.
- 2. Form groups of 4-7 people and share your lists in the groups. Share your individual lists, talking about the importance of each event or person in the history of the congregation. As a group, put each important people or events on a sheet of paper (8  $\frac{1}{2}$  x 11 sheet). These will be hung on the large timeline on the wall in step 3.
- 3. Gather the whole group together. Put an X on the timeline on the wall to signify the start of the church. Invite people to talk about the founding of the church using the questions below. (For things far in the past, you'll need to find older people who can help you remember how the church started!)

Ask these questions about the founding of the church:

- a. What was the spirit and purpose of the church at its start?
- b. Who were the key people who started the church?
- c. What marks did the founders of the church leave on its ministry?
- d. What were the strengths and weaknesses of that time?

Put the important events and people identified by the groups on the timeline in the correct place. If different groups mention the same things, put the papers on top of each other on the same part of the timeline. Examples of items for the timeline:

Changes of pastor Times of growth or decrease

Changes in location or construction Key people, etc.

Changes in name or council Changes in the community or country

Changes in leadership Divisions, debates, conflicts, controversies, etc.

Answer the following questions for each event:

- a. What was the importance of this event for the congregation?
- b. What marks did that event leave on the ministry of the church.
- c. What were the strong points and weak points of that time?

After you have placed the events on the timeline, put a "P" to indicate the present and use these questions to describe what the church is like in the present.

Answer these questions:

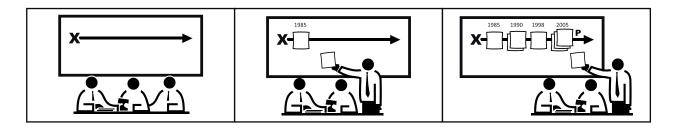

- a. How has the past influenced who we are today?
- b. What aspects of the past do we want to celebrate and continue?
- c. What aspects of the past require healing and reconciliation?
- d. What aspects of the past do we want to leave behind and change?

Celebrate the good aspects of your congregation's history and God's faithfulness to the church. Pay attention to the good parts as much as to the painful parts of the church's past. Both are important.

Spend time in prayer: thank God for what He has done in and through your congregation in the past; confess sins that you have become aware of in the congregation's life; ask God to bless the evaluation process (Take Your Church's Pulse Questionnaires) so you can work toward an even better future for His glory. You can pray in small groups first and then as a whole group.

Finish this process by answering these questions. Be sure to record your answers so they can be used in the strategic planning process that follows the Take Your Church's Pulse evaluation process.

- a. When we look toward the future, what do we see? What do you think God wants us to be or do?
- b. What obstacles do we have?
- c. What institutional factors (of the church) should we take into consideration?
- d. What contextual factors (of the community) should we take into consideration?
- e. What advantages and resources do we have?

### Example of the "New Jerusalem Church":

X				P
1985	1990	1998	2005	2008
Founding of the church by Rev. Henderson	Construction & accelerated growth	Conflict over music styles	Stability and reconciliation	Rev. Henderson dies
Urban area with much growth	Over 200 people in attendance	11 families leave with the co-pastor, Rev. Burton	Little growth in the church	
		Some important factories close Difficult economy for the church	Evaluation of the ministry
